 - ELL (critical need)
 - SPED
 - Post-secondary readiness
 - Low income achievement gap
- Committee members questions and discussion:
 - How does chronic absenteeism compare to pre-Covid? Up from around 2% to now around 17%. Some of that is Homeroom. Noted trends of absenteeism on test days. How might chronic absenteeism be addressed? Speak with families that bring students late regularly. Tighten up Homeroom w/ Seniors. We now have more seniors in more U of U classes, less full-time schedules in our building.
 - Do we push meeting notes to parents? No. They are posted on the website. We could start sending them.
 - Post-secondary enrollment: not sure why it is down. Increase in HSUP courses.
- Would like to see more public recognition of students' academic successes
- Increase our social media presence, branding, swag, parent volunteerism
- Goal-setting, discussion, questions can be communicated via email through Brett/Dori prior to the next official meeting
