

Community Council Notes January 28, 2026

Start time: 3:50

End time: 4:55

Attending meeting Tressa Jackson, Rebecca Laws, Shila Schneider, Nathan Steed and Mike Page

Nathan Steed talked about the Technology safety procedures that SAA has in place to protect the students. He explained the new program Lightspeed that is a classroom management program that detects inappropriate searches on the internet. It flags the admin and system admin when this occurs. He also talked about other computer programs we have to protect the students from getting in the sites they shouldn't be in.

Mike discussed having a company come to present to the student body internet safety and possibly having a parent night. He will contact some organizations that do these presentations.

We then reviewed the current data from Acadience reading and math. The council was shown each grade level and discussed what is in place to help the kids who aren't making progress such as targeted small group interventions.

The meeting adjourned and the next meeting will be Feb 18 at 3:45.
