Guardian Uniform Policy

High academics, character, and a safe and disciplined learning environment are crucial to the success of Good Foundations Academy. Studies show that the adoption of a school uniform policy can also promote school safety, improve discipline, and enhance the learning environment. For these reasons, this policy is to be taken seriously. Our school uniform policy allows us to avoid knowing the social background of a student based on appearance, yet allowing the individual personality of each student to shine through.

Students are expected to dress and groom themselves in a neat modest way reflecting pride in themselves and their school. It is the responsibility of parents and children to ensure compliance with the dress code. If there are any questions, keep it simple, err on the conservative side, and don't be afraid to bring in pictures or the clothing and ask questions.
