Financial, Debt, Risk Management and Disclosure Procedures Plan

In general, the Board of Directors (the "Board") and administration of Wasatch Peak Academy (the "School") shall manage the financial affairs of the School based on the following principles: (1) comply with all applicable laws and bond covenants; (2) provide the best educational services to the students of the School consistent with the School's charter; and (3) get the most effective and cost efficient services possible in all areas at the School.

Financial

General Financial Management

The Board understands that the School is a steward over the financial resources and assets entrusted to it by the state of Utah. The Board recognizes the need to abide by all applicable laws and regulations, including Utah Code § 53G-5-303, including the following acknowledgements: (i) fiscal procedures will be consistent with generally accepted financial management standards; and (ii) neither the School's authorizer nor the state, including an agency of the state, is liable for the debts or financial obligations of the School or persons or entities who operate the School, unless agreed to in writing with the School.

The School adheres to Generally Accepted Accounting Principles as constituted by the Governmental Accounting Standards Board. The School also complies with all applicable areas of the Utah Money Management Act. Cash collected at the School is handled properly, as set forth in the School's Cash Handling Policy.

In accordance with state law, the School, prior to June 30th of each fiscal year, prepares an annual operating budget for the next fiscal year. The budget is designed so that the School priorities, as established by the Board, are met. All budgets and budget amendments are approved by the Board through a vote in a public meeting in accordance with the Utah Open and Public Meetings Act.

Subject to appropriation limits with object codes and other restrictions, the School reserves the right to reallocate funds from one line item in the budget to another if purchasing practices or conservation result in an expenditure different from the budgeted amount. The Board may choose to add undistributed reserves from the School operational budget to the following year and/or may reallocate them to the current fiscal year's budget, at its discretion. The budget and cash flow projections utilized by the School provide sufficient detail to enable reasonably accurate projections of revenues and expenses, separation of capital and operational items, cash flow, and subsequent audit trail documentation.

In addition, the School understands and complies with all applicable fiscal rules and regulations, including completion and submission of an annual financial audit of the current fiscal year conducted by an independent certified public accounting firm by November 30th of the following fiscal year, submission of October and December student counts in accordance with state-mandated deadlines, Utah Money Management reports, wages and benefits negotiation reports, Utah Transparency Act reports and updates, October 1st AFR and APR submissions, and any other regular enrollment and financial reports as required by the State Board of Education now or in the future.

Purchases are authorized and carried out in accordance with the Purchasing and Disbursement Policy and the Procurement Policy adopted by the Board and the Utah Procurement Code.

The School tracks fixed assets in accordance with its Capitalization and Expense Policy and other applicable requirements.

All fiscal policies and procedures comply with the School's Conflict of Interest Policy.

The School assigns a representative to attend school finance and statistics training and all required finance training. The School will continue to take the measures necessary so that its representatives attend future trainings as announced or provided to ensure accounting and management of the School resources are in compliance with any revisions to applicable rules and statutes.

Minimum Reserve and Coverage Levels

The School will maintain minimum reserve and coverage levels that the Board determines are consistent with long-term financial health. The Board Treasurer, administration, business manager, and accounting staff will regularly monitor the status of reserve and coverage ratios and report that information to the Board.

The School will ensure that it satisfies minimum reserve and coverage levels as required by law or applicable bond covenants.

The School will take reserve and coverage levels into consideration when making budgeting, financial planning, and other financial decisions, including decisions regarding major purchases.

Financial Forecasting and Budgeting

Throughout the fiscal year, the Board Treasurer, administration, business manager, and accounting staff will meet regularly to discuss the budget, the School financial status, and any changes. The Board will be fully engaged in the budgetary process and informed of such issues on a regular basis.

The Board Treasurer, administrator, business manager, and accounting staff will meet to prepare a tentative budget. The School's budgeting philosophy will be to conservatively project both revenues and expenses while achieving the level of accuracy required by state standards. The

tentative budget will be circulated to the Board for further review and discussion. The tentative budget will be scheduled for discussion on a board meeting agenda, further discussed, and adopted at the annual board meeting.

As the October 1 count is finalized, and as the School receives new revenues, the Board will be updated on new figures. In order to account for these changes, the Board will approve revisions and amendments to the budget over the course of the fiscal year, as needed and appropriate.

Debt

The School will seek to avoid debt to the extent possible. The School's plan is to only assume debt as absolutely necessary or when the benefits of a purchase will, in the judgment of the Board, benefit the School's students for the life of such debt. The Board recognizes that the ability to take on debt will be governed by the covenants of existing indebtedness and pending indebtedness. The School's accounting staff, administration, and Board Treasurer will be informed of the requirements affecting the School ability to incur debt. Any debt assumed by the School will therefore comply with applicable laws and any existing bond covenants.

As economical or in its best interests, the School will seek refunding opportunities to either lower its debt profile, meet bond covenants or other advantageous benefits realized through a restructure of its debt.

The School will ensure that it satisfies the debt service coverage levels as required by law or applicable bond covenants.

Risk Management

As a nonprofit corporation and public school, the School shall actively seek to avoid unnecessary risks to the greatest extent possible. The School shall always maintain insurance at the highest amount that is either (a) required by law, (b) required by existing bond covenants, (c) is reasonable and customary for a Utah charter school, or (d) is considered prudent by the Board after consulting with qualified professionals. In the event any material risk is identified by the School's Board or administration that is not covered by existing insurance, a qualified professional shall promptly be engaged to evaluate such risk and recommend the appropriate action.

The Board will work with qualified professionals to recognize and avoid risks associated with its governance of the School. In particular, the Board will be cognizant of financial risks that are addressed by the provisions above, compliance with applicable laws, including but not limited to the Utah Open and Public Meetings Act and the Government Records Access and Management Act. The Board will periodically review the policies that it has adopted to ensure that it has all necessary policies in place and that the policies that have been adopted comply with current law, adequately address issues at which they are aimed, and cover all areas requiring board guidance. The Board may periodically request that the administration provide assurance that Board policies are being complied with. In the event the Board learns that policies are not being complied with, it will request the administration to create a plan to remedy any deficiencies and establish procedures to ensure that the policies are complied with in the future.

The administration is also directed to work with qualified professionals, including the School's management company and loss control representatives of the School insurer, to recognize, manage, and avoid risks associated with the operation of the School. In particular, the administration will be cognizant of risks associated with human resources activities, student safety and security, facility matters, and state and federal legal compliance, including civil rights issues. The administration will establish procedures in order to address key issues pertaining to the School operations and will ensure that all the School employees and, to the extent necessary, students and parents, are aware of such procedures. The administration will periodically review and revise administrative procedures in order to ensure that they adequately address the pertinent issues and are consistent with the School situation and needs.

Disclosure (or Post Issuance Compliance)

The School first issued tax-exempt debt in July 2013 and has been committed to complying with all disclosure and post issuance requirements on their debt since that date, and is proud of its record. The School remains committed to full compliance with such requirements on any debt that is the School's responsibility going forward.

Throughout the fiscal year, the Board Treasurer, administration, business manager and accounting staff will meet regularly to discuss how best to comply with all debt obligations using the most effective, efficient, and honest methods available. The full Board will be updated at least once a year on the compliance with such requirements.

In the event of a material violation of any post issuance requirement, or allegation by any source of a material violation, the Board will be informed in writing by the Board Treasurer, administration, business manager or accounting staff, and the Board shall meet promptly to discuss how best to deal with the material violation or alleged material violation.
